DETAILED ACTION

Election/Restrictions

Claim 1 is allowable. The restriction requirement among species, as set forth in the Office action mailed on November 17, 2004, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 5, 8, and 10, directed to a non-elected species are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Art Unit: 3641

Authorization for this examiner's amendment was given in a telephone interview with Michael Sachs on July 11, 2007.

The details of the examiner's amendment are as follows:

- The language of claim 1, line 6 is changed from: "...form the penetrator to provide a separation between the sleeve..." to "...form a separation between the sleeve..."

Allowable Subject Matter

Claims 1-18 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Cytron (5196650), Davis, Jr. (4759293), Julien et al (6581522), Davis, Jr (4704968), and Hesse et al (5408932).

The following is an examiner's statement of reasons for allowance: Applicants independent claim 1 reads over what is considered to be the closest prior art (Cytron) with regard at least to claim limitations directed to a sleeve composed of a shape memory alloy that houses a kinetic energy penetrator wherein the sleeve only minimally penetrates a target upon striking said target and allows said penetrator to slide through said sleeve into said target.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
